DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 67-117 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The specification (p. 18 bottom to p. 19 top) discloses that the preferred embodiment is one where several conveyors are provided which have at least one processing station which ^{is} critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). Applicant is claiming only one conveyor which appears to be missing the essential or critical aspects of the invention.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 90-96, 98-101, 104-109, 112, 113, 115-117 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Reynolds GB 121963. Reynolds substantially shows the claimed subject matter as discussed in paragraphs 5 and 8 of the last office action. Regarding the one conveyor

and multiple processing stations, Reynolds shows conveyor 16 moving the filter tubes which are first stopped by mechanism 20 and then cut by cutting means 22. Since the filter tubes are stopped and cut, the examiner is interpreting the stopping mechanism to be one processing station and the cutting station to be another processing station. Furthermore, means 28 is transporting the filter tubes to filler means 30 and subsequent processing stations such as cap inserting station 38. Furthermore, the examiner notes that it is well known in the art to use one conveying mechanism for a plurality of processing stations to simplify the manufacturing operation by eliminating the use of multiple conveyors.

3. Claims 67-89 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first paragraph, set forth in this Office action.

4. Claims 97, 102, 103, 110, 111, 114 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. Applicant's arguments with respect to claims *supra* have been considered but are moot in view of the new ground(s) of rejection.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3721

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
